Additionally, ChoicePoint will offer DOJ customers flat-rate pricing for access to AutoTrackXP under a usage-based schedule. Customers wishing to obtain flat rate pricing for AutoTrackXP will be billed on a transactional basis for three months, under the pricing terms described above. After this three-month period, ChoicePoint will compute the average usage over the three-month period and apply a 10-30% discount (dependent on total volume) to this average to establish a monthly flat rate going forward. For example, if a customer agency averages \$10,000 in usage over the initial three-month period, ChoicePoint will charge a flat rate of \$7,000 per month for the duration of the customer's fiscal year. Flat rates will be renegotiated on an annual basis, dependent upon customer usage.

**Batch Processing**

Prices for batch processing are negotiated on a case-by-case basis, and depend on the volume of subjects to be searched, the nature of the requirement, data sets to be accessed, format to be returned to the customer, and a number of other factors. In order to allow TSS to evaluate baseline batch pricing, Table 3 below describes the pricing for the basic subject locator batch, which returns two addresses and up to three phone numbers for each address.
